

GETTING STARTED

CD-ROM INSTALL INSTRUCTIONS

1. Insert the CD in your CD-ROM drive.
2. Select [**START**], then **Run**.
3. Type **D:\SETUP** (where D is your CD-ROM drive letter) and click [**OK**] or press [**ENTER**]. If this does not work, go to step 7.
4. Click [**NEXT**].
5. Answer all prompts
6. The destination folder for FILETutor! 2000 is C:\Program Files\CimaSoft\FILETutor!. You may change the folder if you wish.
7. If your computer displays the message:

“Cannot find the file ‘D:\Setup.exe’ {or one of its components}. Make sure the path and filename are correct and that all required libraries are available.”

Click **OK** to go back to the Run Dialog box. Then click **Browse** for D:\Setup.exe. The file Setup.exe should show. Click open or double click on the file name Setup.exe. Click **OK** in the Run Dialog box.

8. Answer all prompts
9. The realistic graphics utilized in FILETutor! 2000 require that the color depth of your PC video be set to High Color (16-bit). In order to adjust the color depth:
 1. Click on "Start"
 2. Select "Settings"
 3. Select "Control Panel"
 4. Double-click on "Display"
 5. Click on the "Settings" tab
 6. Click on the "Colors" drop-down list box
 7. Click on "High Color (16 bit)"
 8. Click on "OK"
 9. You may (or may not) need to restart your PC after making this change.

If you have any problem with this procedure, you should contact your local PC support personnel for assistance.

NOTE: The default password for the FILETutor! 2000 Supervisor's menu is **super**.
